 (Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant suggested amending claim to recite the bird as having a motor and movable wings connected to the motor. Examiner stated that the bird structure of Gordon has both a motor and movable wings although the motor of Gordon is not located inside the bird. Examiner also stated that Gordon does not disclose the motor inside the bird nor a suspension line for suspending the bird from the at least one arm. Examiner stated that these features plus the flying action of the bird due to the up and down flapping of the wings of the bird are not disclosed in the prior art of record. Applicant agreed to Examiner's proposed amendments. Please see the Examiner's Amendment for details.
